

Gnaneshwar Reddy Dontireddy

Cherukupalli, Andhra Pradesh, India — gnanvit11@gmail.com — +91-8639471490
Portfolio — GitHub — LinkedIn

Professional Summary

Aspiring Visual Design Intern with strong foundations in UI/UX design, frontend development, and creative problem solving. Skilled in building responsive, visually appealing interfaces, experimenting with motion design, and exploring AI tools to enhance creativity and workflow efficiency. Passionate about designing engaging digital experiences used at scale.

Education

B.Tech in Computer Science and Engineering

2022 – 2026

Vignan's Foundation for Science, Technology and Research, Guntur

GPA: 6.98 / 10

Relevant Courses: Cloud Computing, Operating Systems, Data Structures, Networking, DBMS, Software Engineering

Technical Skills

- **Design Tools:** Figma, Canva, Photoshop, Illustrator
- **Frontend:** HTML5, CSS3, JavaScript, React.js, Tailwind CSS
- **Programming:** Python, C++, Java (Basics)
- **Frameworks/Backend:** Django, Node.js, Express.js, REST APIs
- **Databases:** MySQL, MongoDB
- **Cloud & DevOps:** AWS, IBM Cloud, Docker, Kubernetes
- **Concepts:** UI/UX Principles, Visual Design, OOP, DSA, Networking & Security
- **Tools:** Git, GitHub, Postman, VS Code, CI/CD (GitHub Actions), Agile/Scrum

Projects

- **Portfolio Website** (Live) Designed and deployed a personal portfolio with smooth animations, responsive layouts, and creative color palettes to showcase UI/UX skills.
- **E-Commerce UI Interface** Created a prototype e-commerce interface in React.js & Tailwind CSS focusing on user experience and visual hierarchy with modern UI elements.
- **Job Portal Web App** Built a student internship/job portal (200+ users) with role-based dashboards and clean UI, applying design thinking for intuitive navigation.
- **Voice Assistant – Hershe** (*Ongoing*) Developing a custom AI voice assistant with Python & NLP, focusing on interactive voice design and user-friendly command interfaces.
- **College Lost and Found Portal** (*Ongoing*) Creating a platform to report and track lost/found items with simple UI and mobile-first layouts (Node.js, MongoDB).
- **Lung Cancer Detection using CNN** Implemented a convolutional neural network for early cancer detection, improving diagnostic accuracy.
- **Facial Expression to Emoji Converter** Built a real-time system mapping facial expressions to emojis using OpenCV and deep learning.

Certifications

- Python Essentials – Cisco Networking Academy
- MERN Stack – ByteXL
- Advanced Software Engineering – Walmart Forage
- Power BI Simulation – PwC Switzerland
- PET B1 – Cambridge University

Achievements

- Built a job/internship portal used by 200 students across departments
- Delivered AI awareness sessions to 250+ government school students
- Managed 2000 registrations during Vignan Mahotsav 2025
- Member of College Project Club, contributing to collaborative design and tech development
- Served as Class Representative (CR) for 5 semesters

Languages

English (Fluent), Telugu (Native), Hindi (Conversational)
